I am pleased to congratulate your recent achievement of Silver Certification in Louisville's 2017 Green Business Recognition Program!

This certification acknowledges the significant steps towards sustainable business practices that your company has taken, and we're proud to recognize your commitment to environmental leadership.

Green business is smart business. Green business promotes resource conservation, reduces operational costs and decreases environmental impact, all while achieving a competitive edge in their industry. They contribute to a better bottom line and a vibrant green economy.

Green businesses improve their communities. They care about the working environment of their employees. They are aware of their impact on their neighborhood and community and in providing quality service to their customers.

Green businesses strive to be socially and environmentally responsible. They operate to meet their needs, without compromising the ability of future generations to meet their own needs.

On behalf of all the residents of the City of Louisville, I thank you for contributing to our community's economic vitality and future sustainability. We greatly appreciate your Green Business accomplishments, and celebrate with you—and all—the 2017 Louisville Green Businesses!

Sincerely,

Robert P. Muckle
City of Louisville Mayor
